

ADAPTIVE BIKE PROGRAM

How Do We Get a Bike?

1. Contact the Child's Parents to explain the Adaptive Bike Program and get the child's therapist's name.
2. Contact the child's therapist to find out what Rifton bike he/she recommends.
3. Contact your Committee Representative who will obtain the cost of the complete unit.
4. Fundraising through local Kiwanis Club or Division. Local businesses have been known to help. Insurance programs should be explored.
5. When a bike becomes a reality for the child, present it at a Kiwanis Club Meeting, inviting all members and businesses who contributed to the project.
